

SURVIVOR MAGNUM™

ULTIMATE WEAPON IN THE BATTLE FOR SAFE WATER

Part No: SVR/B/MAG/750 NSN: 4610 – 99 – 133 – 7481

The **Survivor Magnum** is a personal water purifier which is capable of quickly turning up to **750 litres (200 gallons)** of potentially contaminated water into clear, clean & safe drinking water.

Operating away from a fixed base for extended periods is challenging enough, it's made more difficult when you have to carry all your drinking water with you.

The water is contained in an extremely tough Armour-weave squeezable bag & with our purifier you can now pick up water from available water sources instead of having to carry all your drinking water

It stows neatly as it folds flat & takes no more space than a pair of socks. A similar version is installed in many military fighter-jet seats in case of ejection over hostile territory.

Why the Survivor Magnum?

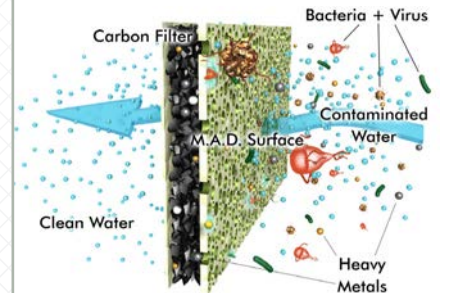

- **Our Survivor Purifier meets and exceeds US EPA Guide Standard for Microbiological Water Purifiers and NSF protocol 231 – US compliance Environmental Protection Agency – EPA's Microbiological Reduction requirements as shown in the US National Primary Drinking Water Regulations (<http://epa.gov/safewater/mcl.html>) under the Safe Drinking Water Act**
- **UK compliance Water Supply (Water Quality) Regulations 2000**
- **EU compliance European Drinking Water Directive Council Directive 98/83/EC**
- **Tested & approved for use by the UK MOD**
- **The only purifier product fully endorsed by the Hospital For Tropical Diseases London**
- **Use on rivers, streams, Lakes, rock pools, standing or stagnant water**
- **NO Chemicals required & NO waiting time -Instant virus level protection**
- **No moving parts**
- **Armour weave material is extremely strong – can resist puncture from sharp objects and other harsh conditions**
- **Container capacity: 1.5 litre (50oz)**
Dry Weight: 134g (4.7oz)

What does it remove

- ✓ **Viruses & Bacteria**
- ✓ **Pathogens**
(including Cryptosporidium & Giardia)
- ✓ **Bad tastes & odours**
- ✓ **Chemicals**
(including VOC's, SOC's)
- ✓ **Heavy metals**
